

How to create a link to the forms website on your iPad

The screenshot shows an iPad browser interface. At the top, the status bar displays "11:11 AM Wed Nov 20" and "LTE 45%". The browser address bar shows "Not Secure — lccsoh.org" with a refresh icon and a share icon circled in red. Below the address bar, the page content is displayed. On the left, there is a vertical navigation menu with categories: "Caregiver-Foster", "Caseworker" (highlighted in green), "Clinic", "Day Care", "Family Visits", "Information Release", and "Legal". The main content area lists various forms and documents, each with a blue arrow pointing to the right, indicating they are clickable links. The list includes:

Click on the icon for Add to Home Screen.

You can name the shortcut whatever you would like by clicking on the top blank line and typing a name in. Once you have typed the name in touch Add.

This will add an icon for the webpage to your homescreen. It may put it on the second page of your ipad applications. If it does you can move it by holding your finger on the icon for a couple of seconds and then dragging it over to the page you want it on.
